

Evolution Markets®

LNG Services

We act as an efficient broker for energy and environmental market transactions.

The liquefied natural gas (LNG) market is at the forefront of the global energy transition, and Evolution Markets' knowledge, network, and expertise give clients the ability to transact across the entire marketplace with one brokerage relationship.

Our market intermediary team provides comprehensive solutions for all three sectors of the market – LNG derivatives, physical LNG cargo, and FFAs.

Why choose us?

Our breadth of services open up attractive trading opportunities, and our brokers provide robust price discovery. Our global brokerage services combine efficient transaction environments with up-to-the-minute information on the movement of LNG to provide successful execution.

A connected experience

At Evolution Markets, we're on a mission to help businesses navigate the markets with confidence. We provide a connected experience across global markets focusing on clarity and transparency at every step.

Cross-market hedging

In combination with our global energy and environmental commodity transaction platform, LNG market participants can also structure hedging solutions across Natural Gas, Power, Oil, and Coal. Our industry-leading Carbon team can help structure carbon neutral cargoes or empower net zero carbon emissions goals.

Our solutions

- **LNG derivatives**
We offer JKM derivatives prices, TFU and TTF Gas prices, and LNG Freight derivatives.

Commodity futures and options trading involves substantial risk of loss and is not suitable for everyone. The high degree of leverage that is obtainable in futures and options trading can work against you as well as for you. Such leverage can lead to large losses and gains. Past performance is not necessarily indicative of future results.
