

## Evolution Markets Earns Seven First Place Distinctions in the *Environmental Finance* 2022 Annual Market Rankings Survey

**White Plains, NY (December 13, 2022):** Evolution Markets was a star performer in this year's Annual Market Rankings published by *Environmental Finance* magazine. The 2022 winners were announced earlier today on the Environmental Finance website, with Evolution being named joint biggest winner, earning six awards covering the EU, UK, North American and Kyoto carbon markets and one award for Europe in the renewable energy certificates (RECs) market.

"Environmental markets will play a vital role in empowering the energy transition and catalyzing solutions to address climate change," said Evan Ard, Chief Executive Officer of Evolution Markets Inc. "Our goal is to provide the platform and transparency necessary for these markets to truly work on behalf of our clients, and we are very pleased to have this hard work recognized by our peers."

The Annual Market Rankings are the largest and most closely watched survey of the world's environmental markets. Market participants are asked to nominate the best banks, brokers, finance houses, law firms and consultants in the traded markets for carbon, renewable energy, biofuel, and weather and catastrophe risk. Companies are evaluated on the basis of efficiency and speed of transaction; reliability; innovation; quality of information and services provided; and influence on the market, not just the volume of transactions handled.

Evolution earned its first Annual Market Ranking award in 2001 and has received more than 160 Environmental Finance awards in the survey's 23-year history. This total is more than any other brokerage company.

Evolution Markets' honors in the annual survey include being named "Best Broker" in the following categories:

- **Best broker, spot & futures:** EU Emissions Trading System
- **Best broker, options:** EU Emissions Trading System
- **Best broker, spot & futures:** UK Emissions Trading System
- **Best broker, spot & futures:** North American Markets (California)
- **Best broker:** North American Markets (RGGI)
- **Best broker, secondary market (i.e., issued CERs/ERUs):** Kyoto Project Credits (JI and CDM)
- **Best broker:** Renewable Energy Certificates - Europe
- **(Runner-up) Best broker, options:** North American Markets (California)
- **(Runner-up) Best broker:** Renewable Energy Certificates - North America
