Evolution Markets Named ‘Best Broker’ in Environmental Finance's 2024 Voluntary Carbon Market Rankings

New York, NY (September 23, 2024): Evolution Markets is proud to announce that it has been named ‘Best Broker’ in the 2024 Voluntary Carbon Market Rankings, conducted annually by *Environmental Finance*. This marks a significant achievement for Evolution Markets, as it is the firm’s first win in this category after being recognized as a runner-up in previous years.

The Voluntary Carbon Market Rankings are a key industry benchmark, with over 7,000 votes cast this year by market participants across 23 categories. These rankings highlight the leading companies and initiatives that demonstrate best practices and innovation within the voluntary carbon market.

We are deeply honored to be recognized as ‘Best Broker’ this year,” said Evan Ard, President at Evolution Markets. “This achievement wouldn’t have been possible without the support of our clients and partners, whose trust and confidence in our services have played a vital role in this success. As we continue to navigate the challenges and opportunities within the voluntary carbon market, this recognition fuels our commitment to excellence.”

The voluntary carbon market has faced significant credibility challenges throughout 2024, impacting corporate demand. However, the substantial level of engagement in this year’s poll reflects the optimism and resilience of market participants, signaling a growing foundation for future growth.

Evolution Markets remains committed to advancing the development of market solutions that enable the energy transition and accelerate the adoption of sustainable practices.
